

**DELTA DENTAL OF NEW MEXICO
ILLUSTRATING THE PLUS PREMIER FEATURE
ADVANTAGE NETWORK**

With all Delta Dental plans, subscribers have benefits for covered services with any dentist, anywhere. The highest levels of benefits apply when subscribers use in-network dentists – dentists in the network selected by the group. Subscribers who use non-network dentists are likely to have additional out-of-pocket costs and balance billing.

Subscribers enrolled in plans featuring the Advantage Network can, however, help control the additional costs associated with receiving services from a non-network dentist. Out-of-pocket costs applicable to non-network services can be reduced by selecting a Delta Dental Premier dentist. Known as the “Plus Premier” feature, Delta Dental Premier Maximum Approved Fees limit the amount that can be balance-billed to a patient. As an example, an Advantage Network subscriber who chooses a Delta Dental Premier dentist will pay the difference between the Maximum Approved Fees allowed under the Advantage Network and Delta Dental Premier, but no amount over the Delta Dental Premier Maximum Approved Fee can be balance-billed to the subscriber.

In addition, any Delta Dental Premier dentist will bill Delta Dental first, avoiding the need for Delta Dental subscribers to pay first and wait for reimbursement. Delta Dental cost management expertise also incorporates coordination of benefits, utilization reviews, in-office fee audits and peer review, saving our purchasing groups millions of dollars annually.

**Assumptions used in member out-of-pocket
cost illustration (see over)**

- Procedure Code 2790 (Crown—Full Cast High Noble Metal)
